Answer: A

Question: 5

What is a function of the physical layer of a cloud infrastructure?

A. Invoking provisioning tasks
B. Creating resource pools
C. A Storing data on storage devices
D. Dynamically allocating resources

Answer: C

Question: 6

What is a function of the control layer of a cloud infrastructure?

A. Pooling resources
B. A Configuring resource pools
C. Communicating across computer systems
D. Providing workflows for executing tasks

Answer: B

Question: 7

Which layer of a cloud infrastructure includes tools that optimize resource utilization?

A. Service layer
B. Physical layer
C. Orchestration layer
D. Virtual layer

Answer: D

Question: 8

Which EMC product offers customers a choice of hypervisor, compute system, and network technology?

A. VSPEX
B. Vblock

C. VPLEX
D. VNX

Answer: A

Question: 9

An organization plans to migrate an application that has loosely coupled components.
Which migration strategy is suitable for such an application?

A. Hybrid
B. Forklift
C. Functional
D. Compatible

Answer: A

Question: 10

In which chargeback model do consumers commit up-front on their required cloud resources for the committed period?

A. Pay-as-you-go
B. Fixed cost
C. Subscription by peak usage
D. User-based

Answer: B
