Question: 5

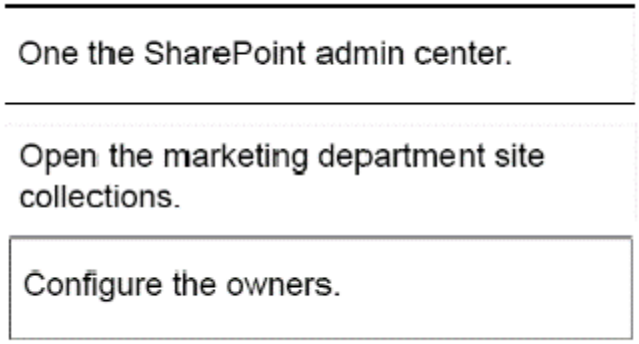

DRAG DROP

You need to meet the site requirements for the marketing department managers.
Which three actions should you perform in sequence? To answer, move the appropriate actions from

the list of actions to the answer area and arrange them in the correct order.

Answer:

Question: 6

You need to confirm whether the performance issues experienced by the HR department site collection are due to the large images.
What should you do?

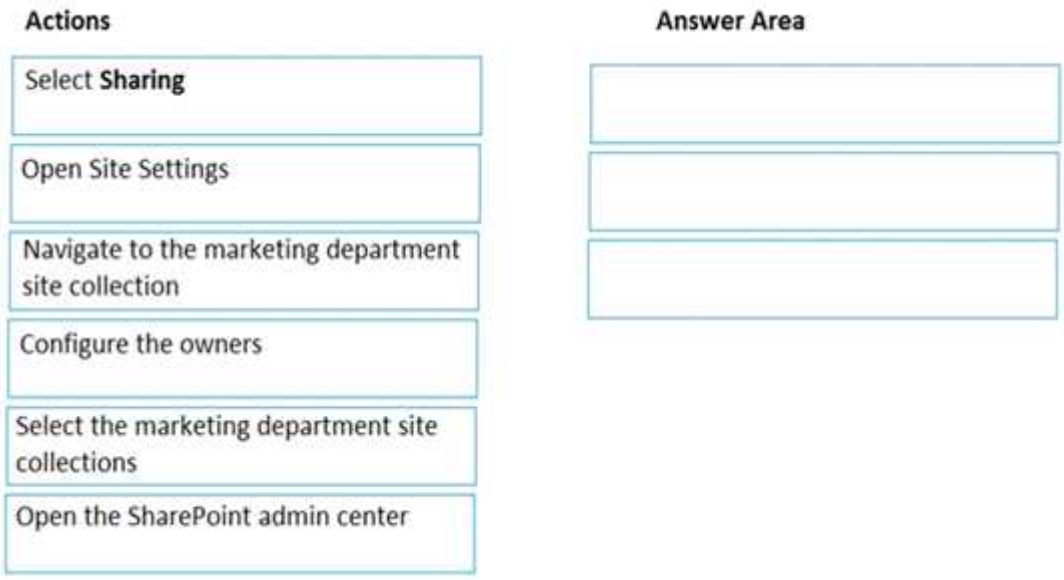

A. From Site Settings for the site collection, select Storage Metrics
B. From Site Settings for the site collection, select Site collection health checks
C. From the Microsoft 365 admin center, view the service status of SharePoint Online
D. From Microsoft Edge, open the site. Run the developer tools

Answer: D

Explanation:
Scenario: Users in the HR department report performance issues affecting their site collection. You suspect that the issues are due to large images on the home page.
You can diagnose common issues with your SharePoint Online site using Internet Explorer developer tools.
There are three different ways that you can identify that a page on a SharePoint Online site has a performance problem with the customizations.
• The F12 tool bar network monitor
• Comparison to a non-customized baseline
• SharePoint Online response header metrics
