Questions
& Answers

Version: 7.0

Question: 1

A business analyst needs to visualize the sales of products by product category, product sub-category, and product name. The analyst would like to see the relative sales by product hierarchy without using a drill-down dimension.

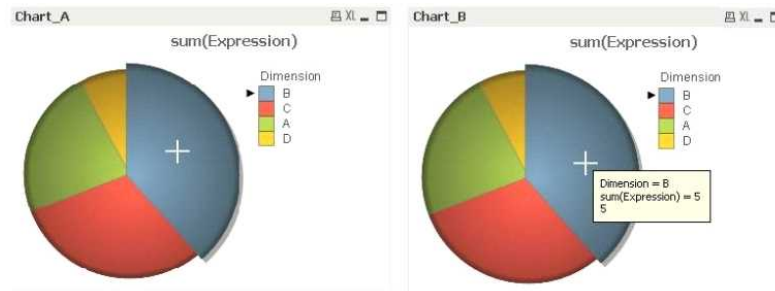

Which chart type should the analyst use?

- A. Grid chart
- B. Block chart
- C. Combo chart
- D. Radar chart

Answer: A

Question: 2

Refer to the exhibits.

A business analyst needs to modify Chart_A so that it looks like Chart_B when users hover a mouse over it.

Which two actions should the business analyst take to meet this requirement? (Select two.)

- A. In the Dimensions tab, check Show All Values
- B. In the Expressions tab, check Text as Pop-up
- C. In the Presentation tab, check Pop-up Labels
- D. In the Expressions tab, check Values on Data Points
- E. In the Presentation tab, check Show Numbers in Legend

Answer: CD

Question: 3

Which three options can be used to change the background on a bar chart? (Select three)

- A. Color
- B. Image
- C. Multicolored
- D. Dynamic Image
- E. Persistent Colors

Answer: ABC

Question: 4

Refer to the exhibit.

The exhibit shows a data visualization tool interface. At the top, a window titled 'Field_3' displays a list of dimension values: A, B, D, E, G, H, C, and F. Below this, a window titled 'Table_1' shows a pivot table. The pivot table has 'Field_3' as the row label and 'sum(Field_5)' as the value field. The data is as follows:

Field_3	sum(Field_5)
E	13
A	9
B	9
G	8
H	8
D	5
TOTAL	35

The TOTAL in Table_1 equals 35 instead of 52
What will this indicate about a data model?

- A. There is at least one synthetic key in the data model
- B. The Expression Total is selected as Total Mode in Table_1
- C. There is a many-to-many relationship between Field_3 and Field_5
- D. Dimension Limits are used in Table 1 to restrict the displayed values

Answer: A

Question: 5

A business analyst needs to analyze average sales by product number and country by year. Which measure(s) should the business analyst use?

- A. Year
- B. Average Sales
- C. Average Sales and Year
- D. Product Number and Average Sales

Answer: D
